Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

Claims 1-8, 18, 56, and 57 are currently pending in the application. Claims 9-17, 19-55 and 58-66 have been canceled

Receipt is acknowledged of Applicant's response / amendment filed on July 01, 2009 and that have been entered.

Response to Arguments

Applicant's response and amendments have been fully considered and found persuasive with respect to the rejection of claims 1-8, 18, 56 and 57 under 35 U.S.C. §103(a) and the rejection is hereby withdrawn. However, upon further consideration, the following new grounds of rejections are made and therefore, Applicants arguments are rendered moot in view of the present Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 4 and 5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims contain the subject matter of a newly introduced variable option for R⁴,

such as, R⁴ is "H" [claim 1 (Currently Amended), line 9, page 2] is considered a new matter since the specification and the originally filed claim 1 excluded this subject matter from the compounds and in the specification on pages 12-16. The amendment changes the scope of the claims to include the compound of formula I that were not previously included in the invention. This rejection can be overcome by deleting the new matter from the instant claims and also amend the claims within the context and scope of the claims (limiting with specific type of compounds that actually contemplated in the specification) in order to overcome the rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 5 and 18 are rejected under 35 U.S.C. § 102(b) as being anticipated by Cauffield *et al* (1997). Applicant claims a substituted thiophenone compound of formula I, compositions and methods of use thereof. Cauffield *et al* also disclose the synthesis of several substituted thiophenone and their derivatives and at least one of them anticipates the instantly claimed invention wherein R¹ is H, R² is OH and R³ and R⁴ are both hydrogen [STN International, HCAPLUS database, RN number, 33687-99-9, a copy is provided with this Office action], which reads on the instantly claimed compound.

Objections

Claim 2, 3, 6-8, 56 and 57 are objected to as being dependent upon a rejected base claim 1, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Telephone Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Golam Shameem, whose telephone number is (571) 272-0706.
